

**HAPPY**  
**10<sup>TH</sup>**  
**BIRTHDAY**  
CELEBRATING 10 YEARS OF PROVEN PERFORMANCE!

2016 marks 10 years of proven performance for SunPatiens. No other annual brings truly reliable flower power in such a variety of colors and applications. It's no wonder SunPatiens are trusted by growers, retailers and landscapers for flourishing blooms in both sun and shade, spring through fall.

**SAKATA**<sup>®</sup>

# Welcome

For over 100 years Sakata has consistently brought innovative varieties to the marketplace, and this year is no different. We pride ourselves on developing new genetics that not only bring more value to our customers, but challenge our competitors and the industry to keep 'pushing the boundaries.' That's why we are so pleased to present our 2016 & 2017 Catalog. Peruse its pages and you'll find an array of exciting new varieties, together with a wide selection of tried and true performers including...

- New **SunPatiens** colors, more CHOICES for you
- **Majorette**, the most UNIFORM gerbera series ever
- **Planet**, a VERSATILE delphinium series for cut, bedding or pot
- **Ping Pong**, the perfect gomphrena series for added DIMENSION
- **Bloomingdale II**, a ranunculus mix IDEAL for quarts, gallons and combos

We think you'll find the catalog easy to navigate and full of the information you need to succeed. However, if you need further details or assistance, please don't hesitate to contact us. As always, thank you for your business and we look forward to serving you.

## Your Sakata Team

*P.S. We're saving trees and resources by creating a two-year catalog. Keep this catalog through 2017!*

# Blue Horizon

F1 Ageratum houstonianum | **B** **C** **P**

- The first F1 triploid ageratum for cut flower cultivation
- Larger blooms than traditional ageratum
- Very vigorous and easy to cultivate
- Tall growing, with sturdy stems and numerous branches

**MINIMUM GERM:** 90%

**SEED FORM:** Standard, Pelleted

**CROP TIME:** Summer 12 Weeks, Winter 15 Weeks

**STEM LENGTH:** 30"

**SPACING:** 4 x 4"

**COLORS / MIXES:** 1 / 0

Blue Horizon

# Harmony

F1 Anemone coronaria | **B**

- The first choice for many perennial growers worldwide
- A superb cold crop for premium pots in early spring
- Combine with pansies, dianthus, bellis and poppies for spectacular color bowls
- For perennial plant sales, transplant to a protected garden site to naturalize

**MINIMUM GERM:** 80%

**SEED FORM:** Raw

**CROP TIME:** Spring 19 – 20 weeks

**CONTAINER SIZE:** 4", Gallons

**PLANT HEIGHT:** 6 – 8"

**PLANT WIDTH:** 5"

## New Color! Vincent<sup>®</sup>

F1 *Helianthus annuus* | **C**

- Pollen-free and day-length neutral for year round production
- High germ, short crop cycle and tight flowering window
- Round, overlapping flower petals create a semi-double look
- Flowers form at a 45° angle on strong stems for superior presentation
- Small upper leaves make Vincent ideal for bouquets

**MINIMUM GERM:** 90%  
**SEED FORM:** Standard  
**CROP TIME:** 8 – 10 Weeks  
**STEM LENGTH:** 60 – 72"  
**SPACING:** 5 x 5"  
**COLORS / MIXES:** 3 / 0

### Vincent's Choice:

Features the well-loved combo of brown centers and deep orange petals

### Vincent's Fresh:

Features a crisp, green center which is a clear alternative to current selections

**DMR**

**NEW**

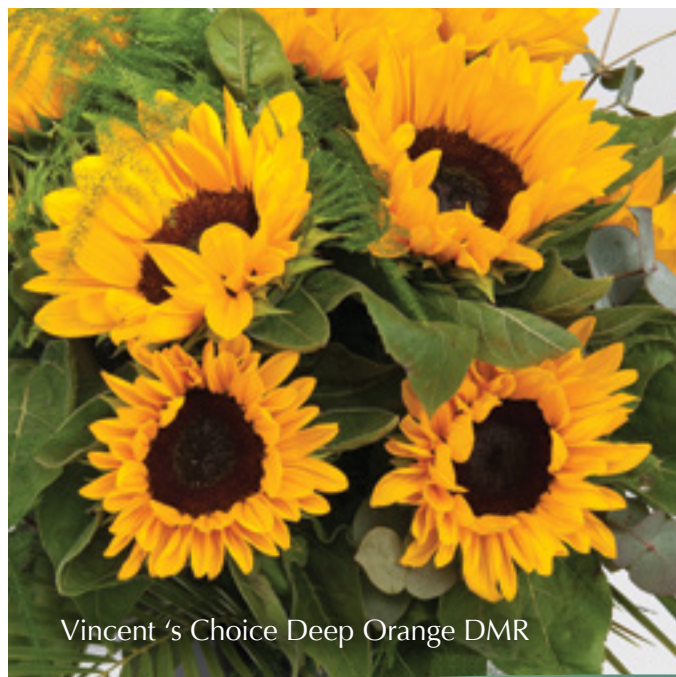

### Vincent's Choice Deep Orange DMR\*

Downy Mildew Resistant

Deep orange color

A bit more pointed petal form

\*DMR helps avoid the risk of lower yield from downy mildew which occurs especially under high humidity and 59 – 77°F (15 – 25°C) condition.

Vincent's Choice Deep Orange DMR

**B** = Bedding **C** = Cut Flower **P** = Potted Crop

Excellent flower position

# Sunbright & Sunbright Supreme

F1 *Helianthus annuus* | 

- Performs well under short day and low temperature conditions (winter)
- Both are single-flowered, pollenless types that hold up extremely well in shipping
- Strong necks for upward facing flower heads

---

<b>MINIMUM GERM:</b>	90%
<b>SEED FORM:</b>	Raw, Primax
<b>SUNBRIGHT CROP TIME:</b>	7 – 11 Weeks
<b>SUNBRIGHT SUPREME CROP TIME:</b>	7 – 10 Weeks
<b>STEM LENGTH:</b>	60 – 72"
<b>SPACING:</b>	5 x 5"
<b>SUNBRIGHT COLORS / MIXES:</b>	1 / 0
<b>SUNBRIGHT SUPREME COLORS / MIXES:</b>	1 / 0

## Sunbright

- More sensitive to photoperiod, flowering from 50 days in winter to 70 – 80 days in summer
- Produces x-large flowers under long photoperiods
- Maintain a minimum temperature of 45°F/7°C to prevent flower damage and maintain active growth

Sunbright

## Sunbright Supreme

- Less sensitive to photoperiod, flowering from 50 days in winter to 65 – 70 days in summer
- Maintain a minimum temperature of 50°F/10°C to prevent flower damage and maintain active growth

Sunbright Supreme

# Little Kiss

F1 *Torenia fournieri* | **B**

- Naturally compact—no PGRs needed!
- Very easy to produce with a short cropping window
- Excellent in beds and as a component in mixed containers
- Continuously flowering in full sun or partial shade

**MINIMUM GERM:** 80%

**SEED FORM:** Pelleted

**CROP TIME:** Spring to Summer 11 – 14 Weeks

petunia and calibrachoa

## Trailing and Upright

SuperCal® varieties tend to fall under two habits—upright and trailing. However, as plants mature they all develop a strong semi-mounding finish. It is extremely important to consider the habit and flowering timing when selecting varieties for small pot production. Please reference the attribute chart on the next page for help with variety selection.

## Marketing Support

Take advantage of the marketing push and retail interest in SuperCal® with branded packaging and Point-of-Sale materials.

SuperCal is uniquely superior to all other petunias, but most consumers won't know that just by looking at the plant. Use our branded pots, tags, bench cards, banners and posters to communicate the features and benefits of this pretty & tough petunia.

To learn more about SuperCal branded packaging and POP, visit [sakataornamentals.com/supercal](http://sakataornamentals.com/supercal) or visit our consumer site at [supercalpetunia.com](http://supercalpetunia.com)

For detailed growing information, visit [www.sakataornamentals.com](http://www.sakataornamentals.com)

# Supertunia®

offered by Proven Winners

Petunia hybrida | **B**

Proven Winners® Supertunia® collection of vegetative petunias represent some of the best varieties on the market, ideally selected for garden performance. Sakata is pleased to offer several varieties of petunias in this collection.

- Striking tones and colors
- Outstanding performers in containers, hanging baskets and beds
- Very good weather tolerance over a wide climate range
- Continuous blooming throughout the season
- Daylength neutral; able to flower under short days

# Quality Vegetables for the Home Gardener

Sakata Home Grown, a vegetable seed division at Sakata Seed America, is committed to offering dedicated service, comprehensive support and superior products to our customers. We have a fantastic line-up of great tasting, productive and easy-to-grow vegetables that consumers crave. Here are three of our must-have varieties:

## Shikou

### F1 Eggplant

- Dark, glossy fruit with a purple calyx (or stem)
- Very few seeds/thin tender skin
- Matures 70 – 80 days from transplant
- Plants have ornamental lavender blooms suitable for larger containers

Shikou

## Takara

### F1 Pepper

- Early and prolific
- Compact habit with extended harvest potential
- Hybrid with ‘classic’ Shishito shape, size and quality
- Outstanding for containers and small space gardens

Takara

## Think Pink

### F1 Tomato

- High quality, deep raspberry-pink fruits have an amazing taste and texture
- Runaway Taste-Test winner at our trials!
- 8 oz. smooth, globe-shaped fruits
- Indeterminate plants that most gardeners prefer

Think Pink
